FINANCIAL AGREEMENT, POLICY ON FEE SCHEDULES AND PAYMENTS

Our office offers two methods of payment for services rendered. Please check one of the following.

SELF PAYMENT PLAN

Under this payment method, charges for services are paid in full immediately after they are delivered, and no insurance codes will be utilized.

INSURANCE PLAN

The fee schedule is higher than the Self Pay as the insurance plan requires considerable insurance billing, copying of records, report writing for medical necessity and completion of forms. Charges will be billed to your insurance company. Deductibles and co-pays, if applicable, are due at the time of the visit.

Verification of coverage is not a guarantee of benefits or payment. Actual plan coverage and benefits are based upon medical necessity and determined by your carrier upon receipt of the claim for your date of service.

PAYMENT PROCEDURE- Our office requires payment at the time of each visit unless the patient is covered by health insurance, which then pays to directly to our office. We must receive valid insurance information and confirm coverage.

CO-PAYMENT IS DUE AT THE TIME OF SERVICE- We are happy to accept payment by cash, check, or credit card.

Our financial relationship is with YOU, not with your insurance company. When we verify benefits as a courtesy to you, we will try to give you general guidelines about what your insurance policy might cover. Since insurance is an agreement entered into by you and your insurance carrier, you are ultimately responsible for knowing the specifics of what your policy covers, as well, you are responsible for services rendered and not paid by your insurance company.

All patient portions of accounts past due for 60 days or greater will be assessed a 5% monthly late charge.

I agree to the above selected payment schedule, and accept my responsibility as outlines in my selection.
